

Naturally DESIGN.
Inspired by nature.

DESIGN

Strong ceramic elements in a strong look.

Our evidence that a ceramic element doesn't have to look like a ceramic element: the TONALITY Design Collection brings the „wow!“ to facade construction – and impresses with modern designs in fascinating colours. Protected throughout by surfaces hardened using the MCS process. Inspired by nature.

Discover the Design lines Oak, Travertine, Cement and Porphyry in exciting colours. UV-resistant, extremely robust and in the usual high TONALITY quality.

PRODUCT | TONALITY® ceramic facade
COLOR | Travertine 1
SURFACE | Ondo

Cement

70831
Cement 1

4

LAYING

HEIGHT | 150 mm to 400 mm

SIMPLE CLEANER!

RESISTANCE IN ALL RESPECTS

Its qualities make the TONALITY facade element something of a superhero: impact- and scratch-proof, UV- and frost-resistant, impervious to graffiti, the weather and thermal influences. In short, our products take on any challenge – and lose neither shape nor colour. For us, that’s just good form.

SHOWROOM

Room for innovation.

Anyone who wants to experience innovation in facade construction should visit the NEXT Studio in Frankfurt am Main. In our display area at the site, you can experience TONALITY live and see the benefits of our systems for yourself. It goes without saying that we will be happy to offer you personal advice.

Feel free to arrange an appointment and visit us at the NEXT Studio. We look forward to meeting you.
